

Fund Objective and Investment Strategy

The primary investment objective of the Enhance – INV Flexible Fund is to maximize investment capital, accepting the higher level of risk associated with this strategy. The strategy will invest in South African and international asset classes and will not be within the limitations set out in Regulation 28 of the Pension Funds Act. The objective of the portfolio is to produce a return in excess of CPI + 6% over any rolling 5-year period.

A wrap fund is a basket of different collective investment schemes wrapped as a single investment portfolio. Changes in the fund selection could constitute a capital gains tax event on capital gains made where not governed by the Pension Funds legislation. There is no joint ownership among investors and individual ownership of the participatory interests in the collective investment schemes can be transparently demonstrated at all times. The wrap fund investment is administered and facilitated by a linked investment service provider (LISP) i.e. an Administrative FSP. The Administrative FSP has service level agreements in place with the management company of each collective investment scheme according to which the repurchase of participatory interests in collective investment schemes comprising wrap funds are guaranteed.

*Please note that the above performance figures are simulated prior to inception, based on the actual portfolio composition and historic returns of the underlying funds. The performance of each individual's portfolio may differ from this overall portfolio performance, depending on the inflows/outflows that each individual undertakes with his/her investment. Client specific returns should be obtained from the relevant administrator or LISP platform.
